## **Our Commitment to Mother Earth**

At the Melia Hua Hin we are committed to respect the environment. We shall seek the partnership of our employees, suppliers, customers and the community at large in our efforts to conserve natural resources and protect the environment in which we operate. To date all departments of Melia Hua Hin have contributed in one way or another towards environmental protection.

The following are some of the projects that have been undertaken or are currently being practised by the hotel:

### **THE 4RS PROGRAMME**

The 4Rs stand for, "Replace, Reuse, Recycle and Reduce". These four words have formed the foundation for our environmental programme throughout the hotel. Promoted by a poster campaign, all of our departments are involved in some way with the 4Rs programme.

### **ENERGY SAVING PROGRAMME**

One of the important measures taken by the hotel was advising the staff and guests how to save electricity and water. An information tent card was placed in every room whilst the staff were given information through a variety of posters. Not only does the energy saving include the guests rooms and public areas but also the staff quarters. Also, we are now replacing the normal 60 watt bulb with and energy saving 11 watt bulb, which gives the same amount of light but lasts six times as long.

### **PAPER**

It is now standard procedure in the hotel for computer paper and other office papers to be reused i.e. used on both sides. This is for the purpose of xeroxing, and also for notes and memorandums.

### **EMPTY CARTON BOXES**

Empty carton boxes are collected and stored before being sold to the paper broker.

### **CHEMICAL**

Chemicals used for laundry and general cleaning have been reduced where possible.

### **OLD NEWSPAPERS AND MAGAZINES**

Old newspapers and magazines are stored and then sold on a regular basis to the newspaper collector.

### **RECYCLING PROGRAMME**

Previously all our drinks coasters were made from paper and, therefore, were not reusable. Recently we have replaced the paper coasters with reusable cloth ones.

Old napkins and bed sheets have also been made into coasters. Torn or old towels are now converted into hand towels. If they are considered beyond reuse they are used for cleaning purposes.

### **EMPTY GLASS BOTTLES**

Empty glass bottles are regularly collected and sold for recycling.

### **OTHER ENVIRONMENT STEPS**

The plastic cosmetic containers in every guest room are now being reused. The housekeepers refill them instead of supplying new containers.

Following discussions with our suppliers we are gradually replacing styrofoam and plastic containers for paper ones which can be recycled such as a shopping bag.

We have placed our new kind of laundry bag in each guest room which can be recycled.

We have placed "Save the Planet" tent cards in every guest room written in four languages. Guests are politely encouraged to reuse their towels whenever possible to save water and chemicals.

### **HAZARDOUS WASTE**

We separate our dangerous waste from the general domestic waste, preventing unnecessary damage to the environment.

### **NON SMOKING AREAS**

Our hotel believes that providing non-smoking areas in restaurants and the provision of two non-smoking floors forms an important part of a "Green Hotel" policy.

### **WASTE WATER TREATMENT**

All waste water is treated by our treatment plant before entering the general waste water pipe. Treated water is also used for watering our gardens.

### **AEROSOL USED**

All the aerosol used in our hotel are water based and ozone friendly, no CFCs.

### **ON GOING**

As a further incentive to the staff we are providing an energy saving award with ideas and advice posted on our "Energy Saving" board.

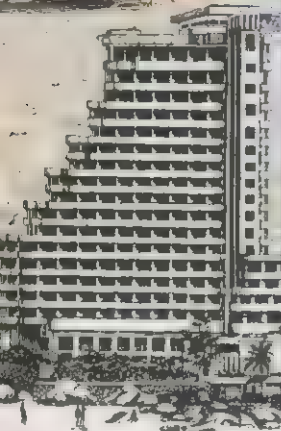

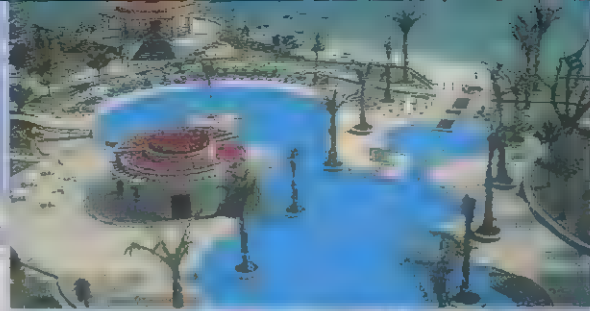

Once a month we have an "Environmental Day" in which the staff and managers help clean the hotel gardens and adjacent beach area. Our last "Green the World" day received an enthusiastic response.

We are convinced that together, we all can do a lot towards a cleaner earth.

## Thailand

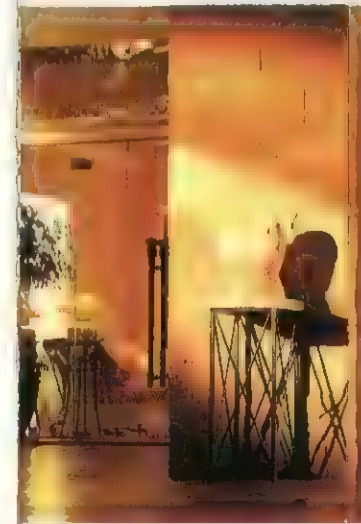

## WELCOME TO MELIA HUA HIN

Rising majestically above a sweep of sandy beach is the magnificent Meliá Hua Hin. This imposing new five-star resort brings the sophistication and facilities of a world-class city hotel to Thailand's traditional royal seaside resort, providing an exclusive retreat for those who appreciate luxury in their vacation or convention venue.

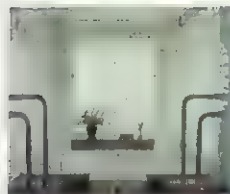

## GRAND GESTURES

Meliá Hua Hin provides a stunning entrance with a dramatically designed lobby that sweeps through a forest of trees and an ornamental pool through an expanse of plate glass to the swimming pool beyond.

Textured stone, polished granite, and a wealth of artefacts and works of art reveal a refined taste and a pleasing attention to detail that enhances every aspect of the hotel.

## ROOMS WITH A VIEW

Stunning sea views are a bonus for all 297 guestrooms and suites, which offer generous accommodation, private balcony and an array of welcome facilities such as satellite TV with in-house movies, hairdryer, and electronic safe. For the privileged few there is the Royal Wing - 12 elegant suites with one or two bedrooms, a living room, dining area, pantry, cloakroom and verandah.
